PRODUCT INFORMATION NOTICE

November 29, 2022

Skyper Tech Pack™
Part # 441122

Axum Tech Pack™
Part # 441121

CMC has become aware of a sewing issue in the red dorsal handle of the Skyper Tech Pack and Axum Tech Pack. These handles have a lower strength than originally intended and may fail in a dynamic event such as shaking or tamping a full load of rope. The packs themselves still have utility, especially the Skyper Tech Pack, which has dual haul straps that are fully functional.

This issue impacts units sold from July 1, 2021 to August 31, 2022. If you purchased a Skyper or Axum Pack in this date range, we would like to send you a replacement free of charge. We want you to be confident in the performance and dependability of your CMC equipment. Our updated packs have dorsal handles that passed secondary inspection to confirm intended strength. Please feel free to keep your current pack and use it as you see fit given the information provided in this notice.

Please contact our Customer Support team to arrange shipment of your new pack by calling (800) 513-7455 or emailing info@cmcpro.com. Thank you for your continued support and trust!
